

## **Emergent Technologies, Inc. to Hold Incubator Open House**

**AUSTIN, TX -- December 3, 2012 --** Emergent Technologies, Inc., a leading innovation solutions company, will celebrate the public grand opening of the Emergent Incubator, a newly available resource for local life sciences and technology start-up companies, inventors and entrepreneurs, from 4:00 – 7:00 p.m., Thursday, December 13, at the Emergent Technologies, Inc. building in southwest Austin. The grand opening will feature tours, networking and complimentary refreshments.

The Emergent Incubator offers a suite of services that includes 2,000 sq. ft. of wet lab space, furnished offices, technology infrastructure, access to on-site business advisors and free-of-charge “start-up boot camps.” The incubator will offer inventors and entrepreneurs assistance with the critical steps of laboratory enablement, intellectual property expansion, and product development.

Heading up the Emergent Incubator is Brian Windsor, Ph.D., Emergent Executive Vice President and Director of Life Sciences. Dr. Windsor said, “Through the Emergent incubator, we will leverage the considerable expertise and experience we have developed over more than two decades of launching companies and building businesses. Entrepreneurs and inventors will have access to our wealth of resources, expert in-house mentors, and multiple avenues for industry partnership and commercialization.”

Tom Kowalski, President, Texas Health & Bioscience Institute, noted, “Emergent Technologies is providing a much needed boost to the Texas life science landscape by providing a valuable asset to the research and development process of bringing drugs, medical devices and other innovative products to the market place. Incubators play a critical role and this will truly benefit central Texas in growing the vibrant life science industry.”

The Emergent Incubator Open House will be held at 11412 Bee Caves Road, Austin, December 13, from 4:00 – 7:00 pm. Reservations for the Open House may be emailed to: [info@emergentechnologies.com](mailto:info@emergentechnologies.com) or calling (512) 263-3232.
